

Sternberg Euro

 **Sternberg**

Euro

Euro's many sizes, mounting and configuration options provide style and versatility for any project. The unique shape merges classic and modern design elements into perfect harmony.

Euro's features and performance meet or exceed the demands of modern site and street lighting environments.

Designed for ease of installation and maintenance, Euro will provide years of trouble-free service.

Euro Family Portrait

From the building to adjacent pedestrian walkways, access roads and parking lots, Euro's scaled family of luminaires are optimized for multiple mounting heights and applications.

Available in post-top, pendent, side-arm, wall, pier mount and bollard configurations, the Euro family can meet any design challenge.

Flat, sag and full lens offerings provide the designer with multiple aesthetic options for both day and night.

NightSky® Friendly

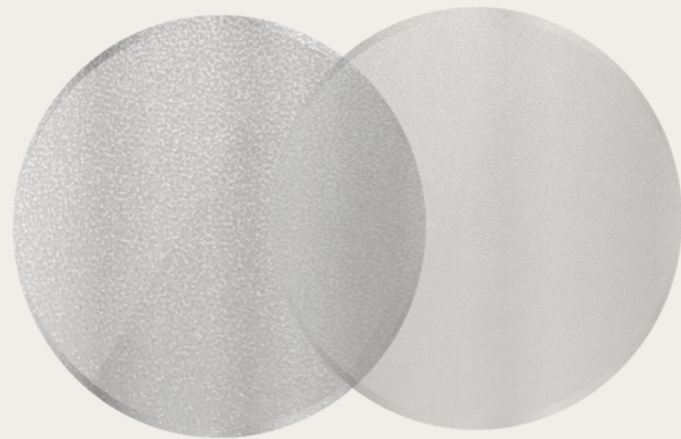

Driver Access

The Post Top models feature a tool-less twist-lock component for easy installation and service to the driver.

SoftVue™

SoftVue™ glare reducing lenses balance performance with visual comfort by diffusing the direct view of the LEDs at lower mounting heights, such as pedestrian applications.

NightSky® Friendly

Protect the night skies with Sternberg's **NightSky®** Friendly optics, designed to emit zero up-light. Available with flat lens only.

Utility Fitter

The E350/E360 Utility Fitter is an alternate driver housing, including a terminal block and optional photocell, with a sealed side-mounted access door for ease of installation and serviceability.

Options include:

- Utility grade terminal block
- Button photocontrol
- Twist-lock photocontrol
- Quick disconnects for installation and servicing

Quick Facts

- NightSky® friendly with U0 BUG rated optics available.
- SoftVue™ glare reducing lens options available for visual comfort.
- Backlight Optic Control (BLOC) options minimize light trespass.
- Scaled family of 4 sizes and 17 unique models available.
- Tool-less, twist-lock driver module for ease of installation and service.
- IP65 rated enclosure is dust and water resistant.

Factory installed BLOC optics minimize back light.
