

# Altur™

## Altur™ Perspectives

Taking inspiration from kinetic sculpture, the Altur™ Bollard and Sconce family of luminaires boast a clean, minimalist design. The elegant, yet rugged monolithic cast body complements and enhances the surrounding architectural elements of the site.

The grazing effect on the bold, sculpted faces adds impact, while glare reducing SoftVue™ optics create a soft, pedestrian friendly illumination and uniform light distribution.

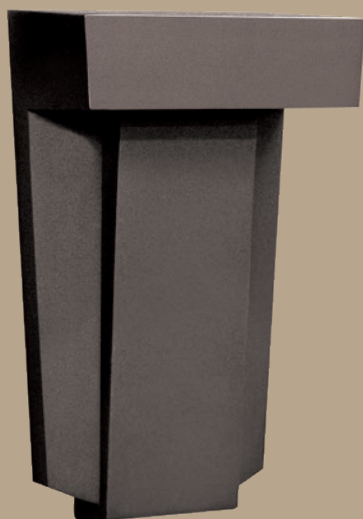

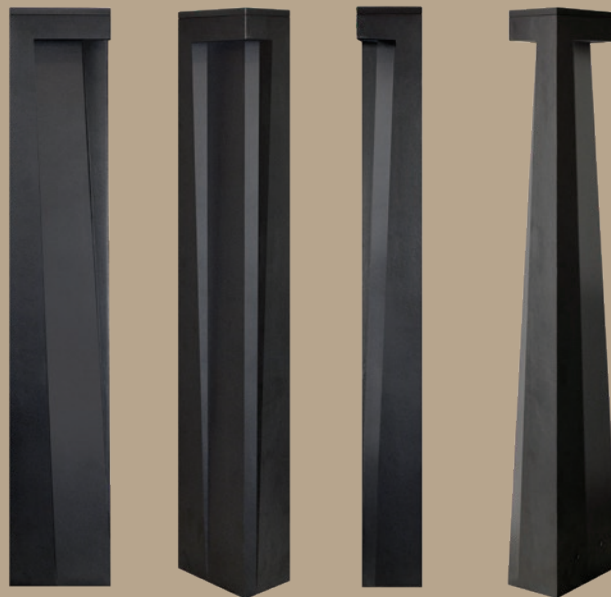

Altur™ is NightSky® friendly, with no unwanted uplight.

# Altur™

## AT360 Bollard

The Altur™ AT360 Bollard body defies convention with an asymmetric design, changing shape from perfectly vertical to a tapered profile.

- Durable, single-piece cast aluminum body.
- Integral twist-lock base is for ease of installation.
- Glare reducing SoftVue™ optics.
- Sealed LED modules and connectors for ease of maintenance.
- Minimal exposed hardware.

## AT270 Sconce

The Altur™ AT270 Sconce redefines the contemporary aesthetic for a wall mounted luminaire.

- Durable, single-piece cast aluminum body.
- Precision optics deliver performance and visual comfort.
- Universal wall plate for ease of installation with integral feature for hands-free wiring.
- Minimal exposed hardware.
- Recessed photocell preserves the appearance, prevents direct sunlight on sensor.
