Traffic Signs

These signs are ideal for directing traffic on your street or in your new subdivision. Each sign is set in a decorative, one-piece, fully backed cast aluminum frame for a great look. Cast frames keep signs steady in all wind conditions. Heavy gauge aluminum signs come in various shapes and sizes to meet your requirements. Cast frames and signs can be sold separately. Custom frame sizes are also available. All Sternberg poles can be used for traffic sign installations.

Traffic Signs can be mounted on many of the Sternberg straight, fluted or smooth, cast aluminum, or concrete poles. The R5-1-24 DO NOT ENTER sign is set in a S24 frame and mounted on our 3710FP4 pole with a custom Roselle "rose" finial center cap.

Custom post top cap as shown above.

Street Signs

These rich-looking aluminum street signs will add a distinct identity to your street or your new subdivision. Signs may be post-top mounted or side-mounted. Signs are fully cast aluminum with raised letters, extruded aluminum blade signs with vinyl lettering or cast aluminum with vinyl lettering. Cast signs are powder coated in an extremely reflective paint, and feature tall, easy to read lettering. Sizes and shapes to meet your requirements.

A logo can be incorporated right into the cast sign.

These weather resistant street signs will enhance your street or area with a highly reflective background and very sharp lettering.
