

 Sternberg Rialta

Elegance with Simple Styling

Whether you're illuminating open areas and pathways, or placing a sleek beacon for wayfinding, Rialta® is the solution. Blending form with function, our expanded collection of columns and bollards brings visual comfort and safety in a variety of sizes, shapes, finishes, and mounting options.

Welcome to our family.

Valley Park Community Center - Hurricane, WV
RW404 12' Columns / RW442 Bollards

The Rialta™ family is available in both 8" diameter and 6" diameter configurations, including columns and complementary bollards. Choose from our RT open caged design, or RW fully lensed design, allowing you to tailor the performance to your specific application.

RT4 Rialta®

Where more directionality and less up-light are desired, both the RT4 column and bollard feature an open cage design with roof-mounted light source, directing 100% of the light downwards below 90 degrees.

RW4 Rialta®

Offered in both column and bollard heights, the RW4 symmetrical lens provides uniformity to open up the space. The structure presents both daytime and nighttime wayfinding for parks, plazas and open pedestrian areas.

RW3 Rialta®

With a sleeker profile at 6"OD, the RW3 family brings the opportunity for unified design across multiple configurations, including light columns, bollards, pendant mounts, candelabras, and wall sconces.

Enhance the versatility of Rialta® with the added dimension of **color**. When desired, transition your column or bollard to virtually any color in the spectrum for a variety of uses and occasions.

Create effective wayfinding on campuses, in downtowns, and business or theatre districts. Enhance school pride by flying your colors on game day, commencements, and other events. Bring heightened awareness and support to causes, like pink for breast cancer awareness. Celebrate the holidays with green on St. Patrick's Day, red on Valentine's Day, orange on Halloween, and so on.
